

ASC's Project on ASEAN and ICT finalised in Kuala Lumpur

Discussion participants during the Roundtable on e-Governance in ASEAN held in Bangkok. (30 April 2010)

The final roundtable in the series of ASEAN and the use of ICT will begin tomorrow, 13 May 2010, in Kuala Lumpur. ASEAN Studies Centre, with its partner, Ideacorp, has been working closely with the local host, Malaysia's Institute of Strategic and International Studies, to make sure that the meeting will be a success.

The emphasis is still on the discussion on regional e-governance in ASEAN, specifically the use of ICT in coordination within the ASEAN organization and participation of its citizens.

ASC's Lead Researcher for Political and Strategic Affairs, Dr Pavin Chachavalpongpun, will represent the centre at the final roundtable. He will bring you the update of this final round.
